SUMMARY

Passionate Full Stack Developer with a strong background in Vue.js and Node.js, along with a solid foundation in C++. I've created responsive user interfaces, built RESTful APIs, and tackled the challenge of making complex systems communicate smoothly with each other. I'm looking for a role where I can push myself further and work on innovative applications that solve real problems.

TECHNICAL SKILLS

Programming Languages: JavaScript, C++, SQL

Frontend Technologies: Vue.js, HTML5, CSS3, Vuex, Vue Router

Backend Technologies: Node.js, Express.js, RESTful APIs

Development Tools: Git

PROJECTS

Turf Booking Platform   June 2025 – Present
Full Stack Web Application   *Vue.js, Node.js, DynamoDB, AWS*
- Developed a comprehensive turf booking system with separate interfaces for customers, turf owners, and administrators
- Built RESTful APIs using Node.js for booking management, user authentication, and real-time availability tracking
- Implemented scalable NoSQL database architecture with DynamoDB for handling booking transactions and user data

Handball Live Score Platform   May 2023 – Jan 2024
Web Application   *HTML, CSS, JavaScript, SQL*
- Developed a real-time sports scoring system for displaying live handball match statistics and scores
- Designed responsive UI with HTML/CSS ensuring cross-device compatibility for mobile and desktop users
- Built SQL database schema for storing match data, team information, and historical game statistics

EXPERIENCE

Software Development Engineer - 1   July 2025 – Present
Codestax.ai   *Chennai, Tamil Nadu*
- Developing full-stack solutions for a fintech retail banking application enabling seamless online account opening using Vue.js and Node.js
- Building responsive frontend interfaces and scalable RESTful APIs for core banking functionalities
- Currently working on VCS Admin Panel, architecting both frontend components and backend REST APIs for administrative operations

Software Development Intern   Jan 2025 – June 2025
Codestax.ai   *Chennai, Tamil Nadu*
- Resolved critical bugs and implemented feature enhancements in Helpstax platform using Vue.js frontend and Node.js backend
- Developed responsive UI components and integrated RESTful APIs for MYKI, an itinerary management application
- Gained hands-on experience in full-stack development lifecycle from requirements gathering to deployment

EDUCATION

College of Engineering Guindy, Anna University   Guindy, Chennai
B.Tech in Information Technology   *Aug 2022 – May 2025*

Kongu Polytechnic College   Perundurai
Diploma in Electronics and Communication Engineering   *Aug 2019 – May 2022*
